New Home Concepts...*HOME OF THE GUTTER RODENT GUARD*

Matching color makes it unnoticeable, and comes in 3" & 4" standard sizes.

Overview Headline

Gutter Rodent Guard attaches to the downspout on the ground and forms a barrier to prevent rodents and other pests from climbing up the leaders/gutters and entering the attic.

Contents consist of base, snap on front cover with mesh design that blocks pests but allows free flow of water. Made of ultra-tough molded Polycarbonate.

Easy to install -

Slide base on the downspout, fasten with one rust proof self-tapping screw (provided)

Easy to clean -

No tools required! Snap off the front, clean the leader, snap the front back on and it locks into place.

Cover snaps off for easy cleaning and snaps back on.

Features -

Patented, cosmetic and effective design.

Made of ultra-tough Polycarbonate – doesn't rust, discolor from chemicals, fade in the sun or deteriorate.

Available in white.

Please call 772-223-4047 or 631-605-2285 for ordering and information. Or visit our website at "www.RodentGuard.net".
